Date of Visit: 18/11/2022

Time: 9:30 A.M to 02:30 P.M.

Total Students Visited: 34

Venue: Bangalore Palace Grounds

INTRODUCTION

In the current global economic environment, there is a pressing need for students to learn about how to manage in dynamic, uncertain, rapidly changing and entrepreneurial environments. The development and introduction of new technologies, systems and services can produce new economic opportunities. Managing successful outcomes to create, deliver and capture value from innovation has become a complex process, requiring broad-based skills and knowledge. There is a careful balance between teaching and learning, individual study and group work.

To be aware of the above situation the department of MBA planed to take the students to Bengaluru Tech Summit. (16/11/2022 to 18/11/2022 at Bangalore Palace)

As per the Permission and instruction given by the management and Principal, the students were taken on the educational tour to Tech Summit.

Tech Summit was Organized by the Department of Electronics, IT, Bt and S&T, Government of Karnataka and Co-Hosted by STPI, Bengaluru Technology Summit brings together the most established businesses across technologies, the most talented individuals, researchers, consultants, academia, professionals and other stakeholders providing with a unique opportunity to interact and engage for mutual benefit.

Objectives of the Visit:

1. To experience the startup knowledge
2. To know the employment opportunities for Management students
3. To attend the Business Workshops organizing by various companies.

BTS 2022 saw the coming together of global technology leaders, India grown IT heads, Biotech, Deep tech and start-ups, all sharing their vision for the future along with their software and solutions displaying their disruptive technologies, educating us about their impact and forging important partnerships and alliances.

As the students of Management, the students were able to understand how the human resource recruitment was affected due to digitalization through the talk given by Mr. Goutham Khanna from Infosys. Also, how the management must move from proactive to pre-active work to improve working infrastructure explanation given by Mr. Sankara Srinivasan from Kyndryl.

After the interactive session with the speakers the students were allowed to visit the slots which explained the innovations through technologies.

Startups are exciting to MBA students for many reasons, including the opportunity for impact, exposure to multiple functions, and practicing skills they are learning. Students gain exposure to a diverse set of industries and functions through the case method, which makes them a great addition to startups where working across functions is part of the environment.
