Mr. Abhishek Singh started his lecture with an introduction to Intellectual Property Rights. He briefed the concept of Intellectual Property that it can be an Invention, Original Design, Trademarks, artistic creation etc. And explained that the Intellectual Property is an asset by acquiring a legal right over the property, the creator of the intellectual property seeks to ensure that he has exclusive right over it. He discussed in detail about the topics such as what is copyright? What do we mean by author or creator?" etc. And further elaborated the types of Intellectual Property and the importance of patent rights. He explained how to file a patent in India itself with respect to life science, biotechnology, computer science and physical sciences and also in the context of collaboration research. He briefed on IPR laws in different countries. Also he explained the Indian scenario of intellectual property system and Trademarks. Also, explained the roles and functions of department of Intellectual Property Rights (IPR) in India. He had given the complete information regarding the registration of Patent to the participants.

Snapshots from webinar are presented below.
